KUSH PATEL

Financial Analyst | FP&A · Variance Analysis · Reconciliation & Close · Working Capital | Excel · Power BI · SQL · Python

Vancouver, BC | +1 (778) 637-1602 | dharma.patel552@gmail.com | linkedin.com/in/kush-patel-48885719b | github.com/KushPatel29 | kushpatel29.github.io

Open to remote and relocation across Canada · Legally eligible to work in Canada · Available immediately

SUMMARY

- Financial-reporting and analytics professional with 4+ years across month-end GL/P&L reconciliation, risk reporting and distribution operations. Builds traceable margin, working-capital and close reporting in Excel, Power BI, SQL and Python.
- Public finance models include a utility variance bridge on official data, a synthetic distributor budget and three statements, and a dated DCF from SEC filings. These demonstrate modelling capability, separate from paid budgeting or investment ownership.

SKILLS

Planning & modelling: Budget/actual variance bridges, price-volume-mix, driver forecasts and scenarios; project work in annual budget cycles, monthly three-statement models, 3+9 reforecasts and DCF/WACC sensitivities.

Controls & working capital: GL/P&L reconciliation, control totals, exception logs, AP/AR aging, DSO/DPO, invoice-match exceptions, inventory valuation and gross margin; journal/segregation tests in projects.

Excel: Power Query, Power Pivot/DAX, dynamic arrays, LAMBDA, what-if data tables and formula-driven models checked against independent calculations.

Reporting & data: Power BI/DAX/RLS, SQL/T-SQL, Python/pandas, Microsoft Fabric, SSRS and Tableau.

PROFESSIONAL EXPERIENCE

Two Rivers Specialty Meats

Dec 2023 – Jun 2026 · North Vancouver, BC

Data Analyst — Operations, Logistics & Enterprise Reporting

- Built source-to-mart GL/P&L and inventory controls, cutting discrepancies an estimated ~45% and reporting errors ~30% (internal directional estimates, not audited).
- Defined revenue, COGS and gross-margin KPIs with Finance and Sales for monthly variance and margin reviews.
- Delivered AP/AR aging, DPO/DSO, invoice-match exceptions and credit-exposure reporting for Finance.
- Owned Power BI semantic models, DAX measures and drill-through finance/operations reports secured with RLS and column masking.
- As sole analyst, integrated ERP, Square POS, workforce and REST feeds into Bronze/Silver/Gold datasets using Microsoft Fabric, Azure Data Factory/Synapse, SQL and PySpark.

Shivam Investments

Dec 2020 – Jul 2022 · Vadodara, India (hybrid)

Financial Analyst — Data & Reporting

- Gathered requirements from portfolio and risk stakeholders; delivered Power BI dashboards with auditable measure definitions and reconciled GL/P&L figures across sources.
- Automated recurring preparation with Python and SQL views, replacing spreadsheet consolidation and cutting manual effort an estimated ~40% (internal directional estimate).

SELECTED PROJECTS — public models and code; synthetic data is labelled

Finance Decision Models in Excel and Power BI — Excel, Power Query, Power Pivot / DAX, Power BI · real public data

github.com/KushPatel29/excel-fpa-model · workbook: PGE_Utility_FPA_Model.xlsx

Variance and planning: Split Portland General Electric's $100.9M miss against plan into weather, price and usage using public EIA/FERC/NOAA data. Excel and Power BI agree to the cent. A separate synthetic distributor budget challenges submissions, phases three linked statements and bridges a 3+9 reforecast. Includes a dated lululemon DCF from SEC filings with bear/base/bull cases and WACC/growth sensitivities, independently checked in Python.

GL / P&L Reconciliation — T-SQL, SQLite, Power BI, Tableau · synthetic data

github.com/KushPatel29/gl-reconciliation-dashboard

Close controls: On synthetic data, tested 5,400 journal entries and enforced segregation of duties. Of 60 account-periods, 8 certify, 9 require review and 43 stay blocked. The Tableau Public view supports period-to-account filtering; sign-offs are not invented.

Pricing & Costing Analytics — Python, DuckDB, Power BI, Streamlit · synthetic data

github.com/KushPatel29/pricing-costing-analytics · live: cost-to-price-calculator.streamlit.app

Margin decisions: A synthetic pocket-price waterfall identifies 18.2% leakage from list price, ranks recovery opportunities and routes proposed changes to named approval roles.

B.C. Local-Government Finance — Excel, Power Query, dbt / DuckDB, Python · real public data

github.com/KushPatel29/bc-local-government-finance

Public-sector planning: An Excel model for 161 municipalities compares renewal, borrowing and tax over five years. For Fernie, closing the modelled gap by 2029 needs 3.7% annual tax growth; the assumptions and source-data defects are explicit.

Revenue-to-cash reconciliation and further finance evidence at kushpatel29.github.io. Valuation is educational, not paid investment analysis.

EDUCATION

Northeastern University — Master of Professional Studies in Analytics (Applied Machine Intelligence), GPA 3.76/4.0 · Vancouver, BC — **Sep 2022 – Jun 2024**

Gujarat Technological University — Bachelor of Engineering, Computer Science · India — **Aug 2017 – Aug 2021**

CERTIFICATIONS

Power BI Data Modelling with DAX · Google Data Analytics Professional Certificate · UC Davis SQL for Data Science · IBM Python for Data Science, AI & Development · Databricks Lakehouse Fundamentals.
